Resene Limelock is a preparatory coating used for the coating and sealing of cementitious surfaces. It promotes cure by creating a water barrier, which unlike traditional curing membranes, may be overcoated with subsequent Resene finishes. Limelock traps free lime in the cementitious substrate promoting cure by producing a water barrier, which allows for subsequent Resene finishes.

**SAFETY PRECAUTIONS**

Read label before use. Keep out of reach of children. This material is quite bland; with vapour, occasional skin contact and even minor ingestion having negligible health risk. Resene Limelock is considered to be non-toxic and non-irritant. If there is any concern, seek medical advice. Harmful to aquatic life with long lasting effects.

**PRESERVATIONS**

USE WITH ADEQUATE VENTILATION. DO NOT EAT, DRINK OR SMOKING WHEN USING. Do not store in original or correctly labelled container, tightly closed, in a well ventilated area indoors, away from foodstuffs, at an ambient temperature and avoid freezing conditions. Avoid release to the environment.

**FIRST AID**

If inhaled: Get fresh air. If you feel unwell: If IN SWALLOWED: Rinse mouth. Call a POISON CENTRE, doctor or first aider if you feel unwell. If IN CONTACT WITH EYES: Rinse cautiously with water for several minutes. If skin irritation or rash occurs get medical advice or attention. IF ON SKIN (or hair): Rinse skin with plenty of soap and water. If skin irritation or rash occurs get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes or as soon as the boxing is removed. If the surface has been allowed to weather, some surface preparation may be required. If eye irritation persists get medical advice or attention.

**PREPARATION**

Resene Limelock is applied immediately following plastering, so surface preparation is necessary. If the surface has been allowed to weather, some surface preparation may be required.

**Overcoating**

Resene Limelock is considered to be overcoated. For tips on responsible disposal of paint, cleaning equipment and minimizing the impact of your decorating on the environment see the Resene website. Do not discharge any paint into the environment. Resene PaintWise (NZ) or paintback.com.au (Australia) accepts residual unwanted paint and packaging.

**APPLICATION**

For use as a surface preparation coating. Resene Limelock is designed to be overcoated.

**USE WITH ADEQUATE VENTILATION. DO NOT EAT, DRINK OR SMOKING WHEN USING.**
