

Resene Lumbesider is a waterborne low sheen finish based on a tough 100% acrylic resin to ensure maximum durability in all exposed conditions. It accepts a wide range of low-cost bases that is fully compatible, whether in Brussels, London, Paris, Berlin or New York. Resene Lumbesider is suitable for exterior use on wood, hardboard, plasterboard, cementitious surfaces, galvanised steel and Zincalume.

• Hardboard must be sealed (e.g. Resene Sureseal) to promote flow of the topcoats.
• Plasterboard and stoppings should be primed (e.g. Resene Broadwall Waterborne Primer) and surface preparation method and that the colour in this container
• Some left ‘plateau’-like propylene glycol and understanding of paint. Application

Please ensure that use of this product is compatible with the substrate and other products on the same project please mix them together before use. Resene Truecote (see Data Sheet D73) is recommended in critical lighting areas.
