Lustacryl
Commercial Spray Grade
semi-gloss waterborne exterior/interior

KEEP OUT OF REACH OF CHILDREN
WHITE
SAFETY PRECAUTIONS
Read label before use. Keep out of reach of children. This material is quite bland; with vapour, occasional skin contact and even minor ingestion having negligible hazard. Repeated skin contact may, and any eye contact will, cause irritation. Harmful to aquatic life with long lasting effects.

PRECAUTIONS
USE WITH ADEQUATE VENTILATION. DO NOT EAT, DRINK OR SMOKE WHILE USING. Store in original or correctly labelled container, tightly closed, in a well ventilated area indoors, away from foodstuffs, at an ambient temperature and avoid freezing conditions. Avoid release to the environment.

FIRST AID
IF SWALLOWED: Rinse mouth. Call a POISON CENTRE, doctor or physician if you feel unwell.
IF ON SKIN (or hair): Rinse skin with plenty of soap and water. If skin irritation or rash occurs get medical advice or attention.
IF IN EYES: Rinse cautiously with water for several minutes. If eye irritation persists get medical advice or attention.
IF INHALED: If breathing is difficult, remove to fresh air or attention.

IF ON SKIN (or hair): Rinse skin with plenty of soap and water. If skin irritation or rash occurs get medical advice or attention.

WASHING ROOM AND BATHROOM

CLEANING PAINT EQUIPMENT:
Spray out as much paint as possible onto newspaper before washing spray equipment. Dispose of wash-up water onto grassy/seasleaved area or into inside sink/basin, NOT into outside stormwater drain where it may harm fish in local waterways.

Resene LustreCryl Commercial Spray Grade is a semi-gloss waterborne enamel that may be used in all areas traditionally reserved for solventborne enamels. Non-yellowing and fast set at higher application thicknesses with easy water clean up.

Preparation
• Ensure substrates to be coated are in sound condition, dry, free from dust, loose material, oil (including mineral oil based wood finishes or similar) and salt.
• Remove accumulated windblown salt by washing with Resene Paint Prep Wash (see Data Sheet D812).
• If mould is present, treat with Resene Moss & Mould Killer (see Data Sheet D800). Efflorescence on masonry must be treated (see Data Sheet D83).
• Corrosion on metals should be removed.
• Fill cracks and holes with an appropriate filler after priming.
• All sanding dusts may be harmful and appropriate protection should be worn. In particular dusts from old lead or chromate based paints or old building materials containing asbestos may be injurious to health if inhaled or ingested. Seek expert advice if the presence of these materials is suspected.
• For new work ensure the surface is sanded to a smooth finish and dusted off. Round all sharp edges. Ensure the surface is dry before painting.

Resin Bondwood must be prepared to an appropriate level of finish. Either Resene Broadwall Surface Prep & Seal (see Data Sheet D807), Resene Broadwall 3 in 1 (see Data Sheet D810) or Resene Sureseal (see Data Sheet D42) followed by lining paper is recommended in critical lighting areas.
• For repaints thoroughly sand and wash to remove all signs of surface contamination. Ensure the surface is dry before painting. Spot prime bare areas.
• This product may be used to paint a wide variety of surfaces. If the surface you propose to paint is unsound or not referred to, try a small test area first or contact your local Resene ColorShop or reseller for advice.

Priming/undercoat
• Prime Cedar and timber joinery with Resene Wood Primer (see Data Sheet D40). Prime other timbers with Resene Quick Dry see Data Sheet D45).
• Resene Quick Dry must be used as the first coat on Matai, Spotted Gum and The Range.

Application method
Airless spray only. This product is not suitable for brush or roller application.

Dry time
1400psi. Spray pressure 1400psi.

Application: Tip recommendation: large areas, tip the gun at an angle rather than straight on. Do not alter spray pattern within the environment. Resene PaintWise (NZ) or paintback.com.au (Australia) accepts residual unwanted paint and packaging.

FOR THE FIRST 5-7 SHOWERS Wipe steam moisture from walls using a lint free cloth immediately after showering. This will prevent the moisture on your freshly painted walls bringing surfactants to the surface. If any marks appear apply Resene Stone Cleaner, following the instructions in the Resene Caring for your paint finish brochure.

Maintenance (after a minimum of four weeks’ drying)
See the Resene Caring for your paint finish brochure or the Resene website for more cleaning instructions.

Be PaintWise
Tips for responsible disposal of paint, cleaning equipment and minimising the impact of your decorating on the environment see the Resene website. Do not discharge into drains. Resene PaintWise (NZ) or paintback.com.au (Australia) accepts residual unwanted paint and packaging. Contact your Local Authority for disposal information.

Quick check
Use on: Solid timber doors/joinery and most surfaces were a hardwearing semi-gloss finish is required.

Gloss level: Semi-gloss.
Coverage: Apply to achieve a wet film thickness of 127-152 microns (this will correspond to a coverage of 7.8 square metres per litre).

Dry time: Will vary with film thickness and environmental conditions. Drying is slow by low temperatures and high humidity. Do not apply under damp conditions.

Recoat time (minimum): 2 hours.

Serviceable after: 48 hours depending on film thickness, timber level and drying conditions, it will still be in the curing stage so care needs to be taken with contact and wiping.

Primer required: Yes.

Usual number of coats: 1-2.

Application method: Airless spray only. This product is not suitable for brush or roller application. Tip recommendation: large areas, doors etc, small areas, trim etc. EFLP312. Spray pressure 1400psi.

Thinning: In hot conditions may be thinned up to 5% with water. Do not use Resene Wintergrade Additive to slow drying.

Clean up: Water.

Colour range: Selected Resene Total Colour System including BS5252, Multi-finish, Whites & Neutrals and The Range.

Before use: Stir well with a wide flat stirrer.
