Lustacryl

Kitchen interior semi-gloss waterborne enamel

Resene Lustacryl Kitchen & Bathroom is a semi-gloss waterborne enamel that combines the popular features of Resene Lustacryl with added WoodFinish to enhance mid-gloss, and the anti-bacterial protection of silver to deter bacteria, providing a safe environment for occupants.

Application

• Apply the coats in the required colour allowing at least two hours between coats.

• Final wash should be graded for any flare-ups that may be left.

• The surface can be further cleaned with a mild liquid detergent using a soft cloth.

• Final washing and final toughening will develop over several days as the paint hardens.

• Plasterboard and stoppings in non wet areas should be primed (e.g. Priming Contact) followed by lining paper is recommended in critical lighting areas.

• Oil and grease must be removed using Resene Paint Prep and Housewash (after a minimum of four weeks’ drying) before topcoating in Resene Lustacryl Kitchen & Bathroom. Please ensure that use of this product is compatible with the substrate and surface preparation method and that the colour in application is correct.

Coverage

- Water: Resene Lustacryl White. 60m² per litre.
- Use: Stir well with a wide flat stirrer.
- Primer required: Yes. Bright colours may require an additional coat.

Quick check

- Use: Interior walls, ceilings and trim.
- Coverage: 12 square metres per litre per coat.
- Priming: The use of a primer is recommended for this product, which will achieve hiding in two coats for most substrates. Increased hiding will be achieved by using Resene Sureseal primer, Resene WoodSeal primer or Resene Vinyl WallSealer primer as a flash coat. See your Resene ColorShop or the Resene website for more information.
- Primer required: Yes. See your Resene ColorShop or the Resene website for a copy.
- Use: Smooth finish with a flat brush, brush, good brush, roller, or spray.
- Priming: To hide conditions, thinning to hide conditions may be thinned with up to 10% water. Use Resene Lustacryl Primer or Resene Hot Weather Additive and Resene Brushing Additive as required. See your Resene ColorShop or the Resene website for more information.
- Clean up: Water-based finishes will soap off with warm soapy water. See your Resene ColorShop or the Resene website for more information.

Before use

- Use: Stir well to ensure consistent colour.
- Coverage: 60m² per litre.
- Primer required: Yes. See your Resene ColorShop or the Resene website for a copy.
- Use: Smooth finish with a flat brush, brush, good brush, roller, or spray.
- Priming: To hide conditions, thinning to hide conditions may be thinned with up to 10% water. Use Resene Lustacryl Primer or Resene Hot Weather Additive and Resene Brushing Additive as required. See your Resene ColorShop or the Resene website for more information.
- Clean up: Water-based finishes will soap off with warm soapy water. See your Resene ColorShop or the Resene website for more information.

In every case it is recommended that the appropriate Data Sheet and Safety Data Sheet are consulted prior to application.

For technical instructions see Data Sheet D310K or call Resene 1800 738 383.
