Resene Lustracyl is a semi-gloss waterborne enamel that may be used in all areas traditionally reserved for solvent-borne enamels. Fast-drying and fast curing with easy clean up.

- **Compound:** Resins, water, pigment, anti-settling agents, dispersants, texturiser, wetting agents, antifoam agents, preservatives.
- **Appearance:** Semi-gloss.
- **Application:** Brush, speed brush, roller.
- **Drying:** Touch dry 45 minutes. Serviceable after 2 hours. Full cure in 7 days.
- **Coverage:** 12 square metres per litre per coat.
- **Recoating:** Serviceable after 48 hours.
- **Flash:** 1 hour.
- **Spreading Rate:** 4.2 litres per cubic metre.
- **Recommended Use:** Priming/undercoat.

**SAFETY PRECAUTIONS**

- Read label before use. Keep out of reach of children. This material is quite bluish incope with opaque container. Skin contact and even minor ingestion has negligible biogazdy. Repeated skin contact may and any eye contact will cause irritation. Harmful to aquatic life with long lasting effects.
- **Precautions:** Use with ADEQUATE VENTILATION. DO NOT EAT OR DRINK WHILE USING, OR CLOSE YOUR EYES.
- **Storage:** Store in original or correctly labelled container, tightly closed, in a well ventilated area indoors, away from foodstuffs, at an ambient temperature and avoid freezing conditions. Avoid release to the environment.

**FIRST AID**

- **If SWALLOWED:** Rinse mouth. Call a POISON CENTRE or doctor if on prospect of it being swallowed.
- **If SKIN (or hair):** Rinse skin with plenty of soap and water. If skin irritation or rash occurs get medical advice or attention.
- **If IN EYES:** Rinse cautiously with water for several minutes. If irritation persists get medical advice or attention.
- **If INHALED:** If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. When seeking medical advice take container with you.

Further information can be obtained from:
- AUST: POISON INFORMATION CENTRE 131 126
- NZ: NATIONAL POISON CENTRE 0800 POISON (0800 764 766)
- call Resene 0800 718 363.
- For use as a decorative/protective coating.

For full technical instructions see Data Sheet D310C. If using this product tinted to a Resene CoolColour™, see Data Sheet D310C. Keep at rest in a position comfortable for breathing.

- **Keep out of reach of children.**
- **Mistakes:** Some ‘soft’ plasterboard preparatory products and undercured gypsum based paints or old building materials containing asbestos may be present.
- **Fill cracks and holes with an appropriate filler after priming.
- **For repairs:** Keep away from closed packed areas until the paint is cure, and priming of the surface is well damped. Ensure substrates to be coated are in sound condition, dry, free from dirt, contamination. Ensure the surface is dry before painting.
- **For new work:** Ensure the surface is sanded to a smooth finish and dusted off. Round all sharp edges. Ensure the surface is dry before painting.
- **For repaints:** Thoroughly sand and wash to remove all signs of surface contamination. Do not apply if you propose to paint it unmixed or not reformulated, by a usual trade area first or on a previously painted surface. Resene Sureseal or Resene StainLock Reinforcement with a saturation coat of a fully penetrating primer (such as Resene Sureseal) may be required. Use Resene Sureseal or Resene StainLock Additive to seal wood grain and stoppings in wet areas should be sealed with Resene Sureseal. Fibrous plaster and other substrates before priming. Prime other timbers with Resene Quick Dry. Prime with Sureseal or Resene Stainlock. Topcoat with Resene Sureseal. Efflorescence on masonry must be treated. Ensure substrates to be coated are in sound condition, dry, free from dirt, contamination. Ensure the surface is dry before painting. Prevent the moisture on your freshly painted walls bringing surfactants to the surface and, depending on the substrate, may reduce its lifespan and visual appearance. Resene CoolColours can be used on appropriate projects. Dark colours used on exterior surfaces are likely to increase heat and stress on the building. If using this product tinted to a Resene CoolColour™, see Data Sheet D310C. Keep at rest in a position comfortable for breathing. When seeking medical advice take container with you.
