Lustacryl
semi-gloss waterborne enamel
exterior/interior

Resene Lustacryl is a semi-gloss waterborne enamel that may be used in all areas traditionally reserved for solventborne enamels. Fast-painting and fast drying with easy water clean up.

Preparation:
• Surfaces must be dry and dust free. Paint will not adhere to damp or dusty surfaces.
• Surfaces must be free from old paint and contaminants. The surface must be sound and free from damp, loose material and efflorescence. Areas with dampness or efflorescence must be allowed to dry, or treated with Resene Sealer. If these problems are not allowed to dry, or treated, application of Resene Lustacryl will be unsatisfactory.
• Ensure that the surface is at ambient temperature (cool to touch. Check with Resene staff whether a Resene
range of Buried earth. Collect and seal in properly labelled drums. Do not allow to enter drains or to run off into waterways. Refer to Data Sheet D310C.

SAFETY PRECAUTIONS
Read label before use. Keep out of reach of children. This material is quite bland; with vapour, occasional skin irritation or rash may occur.

PRECAUTIONS
USE WITH ADEQUATE VENTILATION. DO NOT EAT, DRINK OR SMOKE whilst using this product. Do not allow paint to come into contact with skin or eyes. Store in original or correctly labelled container, tightly closed, in a well ventilated area indoors, away from foodstuffs, at an ambient temperature and avoid freezing conditions. Avoid release to the environment.

FIRST AID IF SWALLOWED: Rinse mouth. Call a POISON CENTRE, doctor or chemist immediately. IF INHHALED: Remove from area, allow to cool to touch. Check with Resene staff whether a Resene
range of Buried earth. Collect and seal in properly labelled drums. Do not allow to enter drains or to run off into waterways. Refer to Data Sheet D310C.

data sheet for this product. The result will be an edge line with a sharp transition. If a smooth blend is required, a sealer should be used before applying the final coat of Resene Lustacryl.

Priming/undercoat
• Most surfaces where a hardwearing semi-gloss
finish is required.

Primers/undercoats

Other Resene (Broadform) Seal & Roll (see Data Sheet D23), Resene Lustacryl 3 in 1 (see Data Sheet D23) or Resene 3 in 1 (see Data Sheet D23) can be used for a new coat of paint. Follow the instructions in the Resene Caring for your paint finish brochure.

Clean up

Quick check

All Resene topcoat paints.

Use: Most surfaces where a hardwearing semi-gloss
finish is required.

Coverage:
12 square meters per litre to 20 square meters per litre depending on the surface treated, the depth of colour and application technique. Always test over a small area before use. If the product will achieve high in cost for most colours, increased cost for the Range.
