SAFETY PRECAUTIONS
Read label before use. Keep out of reach of children. Causes skin irritation. Causes serious eye irritation. Harmful to aquatic life with long lasting effects.

PRECAUTIONS
USE WITH ADEQUATE VENTILATION. DO NOT EAT, DRINK OR SMOKE WHILE USING.

Store in original or correctly labelled container, tightly closed, in a well ventilated area indoors, away from foodstuffs, at an ambient temperature and avoid freezing conditions. Wear protective gloves and clothing, eye and face protection. Avoid release to the environment. Dispose of empty container safely. Consult Resene checklist on environmentally acceptable methods for cleaning equipment and disposing of unwanted paint.

FIRST AID
IF SWALLOWED: Call a POISON CENTRE, doctor, physician or first aider if you feel unwell.
IF ON SKIN (or hair): Wash with plenty of soap and water. Take off contaminated clothing and wash before re-use. If skin irritation occurs get medical advice or attention.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation persists get medical advice or attention.
When seeking medical advice take this container with you.
Further information can be obtained from AUST: POISONS INFORMATION CENTRE 131 126 or call Resene 1800 738 383.
NZ: NATIONAL POISONS CENTRE 0800 POISON (764 766) or call Resene 0800 737 363.
For use as a decorative/protective coating.
For full technical instructions see Data Sheet D49.

SPILLS: Use appropriate protective clothing. Absorb with sand or earth. Collect and seal in properly labelled drums. Do not allow to enter drains or to run off into waterways. Refer to local waste management authority.

CLEANING PAINT EQUIPMENT: Brush/roll out as much paint as possible onto newspaper before washing brushes and rollers. Dispose of wash-up water onto grassy/unsealed area or into inside sink/basin, NOT into outside stormwater drain where it may harm fish in local waterways.

Resene Membrane Primer is a specially formulated pre-treatment to upgrade adhesion, both wet and dry, to rubber membrane sheeting materials and bitumen coated surfaces/substrates.

Preparation
• Ensure substrates to be coated are in sound condition, dry, free from dirt, dust, loose material, oil (including mineral oil based wood finishes or similar) and salt.
• Remove accumulated windblown salt by washing with Resene Paint Prep and Housewash (see Data Sheet D81).
• If mould is present, treat with Resene Moss & Mould Killer (see Data Sheet D80).
• Wherever oil and grease are present ensure the surface to be painted is thoroughly cleaned using Resene Roof and Metal Wash (see Data Sheet D88). Flush clean with water.
• Scrub down aged bitumen surfaces with Resene Paint Prep and Housewash.
• All sanding dusts may be harmful and appropriate protection must be worn. In particular, dusts from old lead or chromate based paints or old building materials containing asbestos may be injurious to health if inhaled or ingested. Seek expert advice if the presence of these materials is suspected.
• This product may be used to paint a wide variety of substrates. If the surface you propose to paint is unsound or not referred to, try a small test area first or contact your local Resene ColorShop or Reseller for advice.

Application
• Apply one full coat.
• In summer months black roofing membranes can get very hot, leading to very rapid dry times and reduced flow properties. Use Resene Hot Weather Additive to overcome this.

Overcoating
• Overcoat within three months.
• Resene Membrane Primer is designed for overcoating by Resene Hi-Glo (see Data Sheet D31), Resene X-200 (see Data Sheet D62) and Resene Lumbesider (see Data Sheet D34).

Use on: Butyl rubber membrane, bituminous substrates and asphalt tennis courts. Not for use over metal roofs.
Gloss level: Gloss.
Coverage: 16 square metres per litre per coat.
Dry time (minimum): 20 minutes. Do not apply at temperatures below 10°C or when temperatures are liable to drop below this during the drying period. Drying is slowed by low temperatures and high humidity. Do not apply under damp conditions.
Recast time (minimum): 2 hours.
Number of coats: One.
Application method: Brush, synthetic fibre roller, or spray.
Thinning and clean up: Water.
Hot conditions: In hot conditions may be thinned with up to 5% Resene Hot Weather Additive to slow drying.
Colour: Slightly milky.

Before use: Stir well with a wide flat stirrer.

Enjoy the Resene Promise of quality on premium paints. See your Resene ColorShop or the Resene website for a copy.

In every case it is recommended that the appropriate Data Sheet and Safety Data Sheet are consulted prior to application.
