NON SKID DECK & PATH

WHITE

Resene Non-Skid Deck & Path is a waterborne coating filled with graded silica that can be tinted to a range of standard colours. Designed for use on both exterior and interior trafficable areas where a durable, tough, non-slip surface is required. Non-Skid Deck & Path provides a variety of anti-slip surfaces for areas such as pool decks, driveways and recreational areas.

Coverage

Usual number of coats

Primer required

Recoat time (minimum)

Dry time (minimum)

Surface preparation

To obtain a dry, dust-free surface in sound condition, clean thoroughly with a mild detergent solution. Thoroughly dry the surface before applying.

Priming

Where a durable, tough, non-slip surface is required.

Application

First application: apply with a brush to suit area requiring coating or apply in an area where a durable, tough, non-slip surface is required.

Second application: apply a second coat at right angles to the first application with a brush or roller. Apply in an area where a durable, tough, non-slip surface is required.

Maintenance

As new concrete must be allowed to cure for a minimum of 28 days before sanding, at least 1 hour at 17˚C. Allow at least 24 hours before sanding with a brush or roller. Non-Skid Deck & Path is designed for use on a variety of surfaces.

Disposal

Note: Disposal of paint equipment is the responsibility of the person using the product. Painters are required to dispose of paint waste responsibly. Contact local waste management authority for disposal information.

Be PaintWise

For tips on responsible disposal of paint, cleaning equipment and minimising the impact of your decorating on the environment see the Be PaintWise website. For a copy, visit www.resene.com.au or call Resene 1800 738 383 (AUST), 0800 737 363 (NZ) or visit www.paintwise.com.au (Australia).

Cease use on:

• Sensitive skin areas
• Children's toys
• Fireplaces
• Near flames
• Near electrical equipment

In every case it is recommended that the appropriate Data Sheet and ColourShop or the Resene website for a copy.

Before use:

• Stain with a water based flat finish. Apply a sealer on top of the first coat. Use Resene Total Colour System colours available on request.

For a copy, visit the Resene website.
