**Resene Polymeric AV-8** is a single pack high-build vinyl topcoat providing outstanding resistance to corrosion in severe atmospheres. Content, an acrylic reinforcement to provide superior gloss and colour retention. These characteristics ensure maintenance-free performance over many years exposure in highly corrosive environments.

**General**
- **Safety Data Sheet (SDS)** is available and must be consulted before use.
- In every case it is recommended that the current Resene Data Sheet is consulted for product data and surface preparation information.
- **Ventilation requirements may vary according to application methods, environmental conditions and equipment used.** Consult Resene Representative for advice in this respect.

**FIRST AID**
- **If swallowed:** Rinse mouth.
- **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If eye irritation persists: get medical advice/attention.
- **IF INHALED:** Getting fresh air is the most important thing. If symptoms or感觉不适应: contact a POISON CENTRE if you feel unwell.
- **IF ON SKIN:** (or hair): Remove/take off all contaminated clothing and wash before re-use.

**Safe handling instructions**
- **Do not breathe fumes/mists/vapours. Use with adequate ventilation.**
- **Do not expose to open flames/hot surfaces. No smoking, open flames or pilot lights.**
- **Use explosion proof electrical/lighting equipment and other equipment. Use only non-sparking tools.**
- **Ensure correct wet film thickness is applied to achieve desired dry film thickness.**
- **Ensure correct wet film thickness is applied to achieve desired dry film thickness.**
- **Do not handle until all safety precautions have been read and understood.**
- **Store in original or correctly labelled container, tightly closed, in a well ventilated area.**
- **Do not store in heat or near foodstuffs. Avoid release to environment.**
- **Cleaning Paint Equipment:**
  - Brush/roll out as much paint as possible on to newspaper before washing out brushes/rollers with the recommended thinner. Do not wash out in detergent solution or soap.
  - **Dispose of washout water and soap.**

**Thinning and clean up**
- **Resene Thinner No.7A.**
- **Recoat time (minimum):** 16 hours at 20˚C.
- **Dry time (minimum):** 12 hours at 20˚C (higher film builds may require extended dry times before recoating).

**Polymeric AV-8**
- **Engineered Coating Systems**
- **Provide outstanding resistance to corrosion in severe atmospheres.**
- **Content:** An acrylic reinforcement to provide superior gloss and colour retention. These characteristics ensure maintenance-free performance over many years exposure in highly corrosive environments.
