Resene Qristal ClearFloor 1K is a waterborne urethane durable finishing designed to protect your wooden flooring and keep it looking its best for longer.

Preparation:
- Ensure surfaces to be coated are in a sound condition, free from dirt, dust, loose material, oil, grease and floor polishes.
- Stop all nail holes and cracked timber with a suitable filler.
- Thoroughly sand surfaces prior to coating. Finish off with fine sandpaper, remembering to sand with the grain. For best results tot prevent marring, previously varnished surfaces is recommended to ensure a uniform appearance. Alternatively sand old varnish to remove all and provide a key for good adhesion. Non-urethane rich will be created when a new clear coating is applied to a floor that has areas of bare timber and old varnish.
- Thoroughly vacuum all surfaces to remove loose surface contaminants and sanding dusts. Pay special attention to sanding dusts and vacuuming the gaps between tongue and groove flooring.
- All sanding dusts may be swept away or heavy protection. Sanding dusts from old lead or chromate based paints or old asbestos containing building materials may be injurious to health if inhaled or ingested. Seek expert’s advice if the presence of these materials is suspected.

This product is designed for application to timber or timber composite flooring. If the surface you propose to coat is unsound or not referred to your nearest Resene ColourShop or Reseller for your nearest Resene Technical Representative.

Application:
- Apply by synthetic brush or Resene Waterborne Clear roller sleeves.
