Resene Uracyl GraffitiShield is a two-pack clear anti-graffiti coating for a variety of substrates that develops early resistance to tagging with spray paint. Graffiti can be cleaned off using Resene Graffiti Cleaner. To maximise cleaning cycle frequency before reapplication, a waterborne sealer coat is recommended using Resene GraffitiShield Clear Gloss.

General
- It is important to follow the instructions on the Data Sheet for the specific product you are using. 
- Safety Data Sheets (SDSs) are available and must be consulted before use.
- This product can be accelerated by use of the Resene Weather Additive.
- When using the Weather Additive, refer to the Product Data Sheet RA58.

Use of Isocyanates
- Use of Isocyanates issued by OSH before using this product.

Storage
- This product is MSDS compliant.

Application
- Ensure the required curing period has been given for the product to dry and harden before recoating.

Cleaning
- Cleaning is easily accomplished using Resene Graffiti Cleaner. To maximise cleaning cycle performance, recoating time is dependent on the level of graffiti resistance.

Handling
- Resene Graffiti Cleaner will ultimately end up with the need for recoating of the system to maintain graffiti removal. Recoat time is dependent on the level of graffiti resistance. 
- Minimum – 3 hours at 18°C. Maximum – 7 days at 18°C.

Theoretical coverage
- Resene Uracyl GraffitiShield Clear systems are not recommended for use on premium paints. 
- See your Resene Paint Centre on premium paints.

General
- Before using this product, please read the Data Sheet RA58.

WARNING
KEEP OUT OF REACH OF CHILDREN

SAFETY PRECAUTIONS

To avoid injury to the hands of each of the children. Keep Miller from skin irritation. May cause an allergic skin reaction. Suspected of being hazardous to the environment. Caution: severe skin irritation. Harmful to aquatic life long lasting effects.

PRECAUTIONS

AVOID BREATHTAKING DUST OR SPRAYS OR DO NOT DRINK OR INHALE THE PRODUCT. USE PROPER VENTILATION. Store in original or correctly labelled container, tightly closed, in a well-ventilated area away from flammables, heat, direct sunlight and avoid excessive temperatures and avoid freezing conditions. Wear protective glasses and gloves and provide adequate absorbent in case of spillage. Contaminated clothing should not be allowed out of the workplace. Avoid release to the environment.

FIRST AID

IF INGESTED: Refer to local poison control centre.

IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing.

IF INJECTED OR IN CONTACT WITH SKIN: Wash affected area with soap and water. If irritation persists see a doctor.

IF ON SKIN (or hair): Wash with plenty of soap and water. If skin irritation persists contact a doctor.

IF SWALLOWED: Call a POISON CENTRE, doctor or first aider if you feel unwell.

IF SPOILED: Refer to local waste management authority.

Do not allow thinner to enter paint as possible on to newspaper before washing out brushes/off into waterways. Refer to local waste management authority.
