**SAFETY PRECAUTIONS**

Brush, short nap synthetic brush. Do not allow Resene Brush Cleaner to enter any drains.

- **AVOID Breathing Dusts/Fumes.** Gas, Mist, Vapours, Sprays do not enter the mouth or eyes of worker. Store in original or correctly labelled container, tightly closed, in a well ventilated area away from foodstuffs, either between 15°C-20°C or at cool constant temperature. Wear protective glasses and clothing, use with plenty of ventilation. Gassed in case of breakage and receiving equipment. Use vapour-proofed electrical, ventilating, lighting and wiring in equipment. Use only non-metallic equipment. Take precautionary measures against static discharge. Avoid contact with skin, eyes and clothing. Consult a doctor if exposed. Use plastic lined bags and methods for storing equipment and disposing of unused paint.

**FIRST AID**

If you have just been splashed you may not feel unwell. If you think this is possible consult your doctor. If you develop symptoms consult a doctor or hospital immediately.

For full technical instructions see Data Sheet D512.

**CLEANING PAINT EQUIPMENT:**

For use as a decorative/protective coating. Resene Walk-on Concrete Clear Wet Look is a solventborne gloss clear designed to achieve a wet look finish on substrates subject to pedestrian and light vehicular traffic. It penetrates into the concrete in heights of one coat at a time.

- **Preparation**
  - Ensure substrate is suited to be coated in sound condition, dry-from-dust, free from dust, grease, milium containing oil based wood finishes or sealers. Refer to Resene Paint Prep and Finishwise (see Data Sheet D123) if dust or moisture is a problem. 
  - Check Resene brush cleaner label, if a wet concrete or wet sand surface is found then allow to dry before coating. Efficiency or consistency may be marred, if the cause of efflorescence is not corrected.
  - Mix Resene Walk-on Concrete Clear Wet Look.

- **Application**
  - Concrete should be sound, dry and acid wash (see Data Sheet D/D123) prior to clear coating. Acid washing is only to be used in the absence of a conditioning membrane. Soluble sodium hydroxide does not immediately absorb the water and then grinding is the only surface preparation option.
  - Concrete should be dry. Apply Resene Walk-on Concrete Clear Wet Look.

- **Thinning:**
  - Use foam, carbon dioxide or dry chemical powder.

- **FLAMMABLE LIQUID AND VAPOUR**

- **Use on:** Concrete, unglazed tiles, brick, cobblestones, driveways, paths, steps, patios, swimming pool surrounds and light industrial floors.

- **Gloss level:** Gloss (wet look).

- **Coverage:** Dependent upon surface porosity and type, typical coverage for concrete is 4.5-5.5 square metres per litre.

- **Dry time:**
  - Minimum: 2 hours. Drying is slowed by high temperature and high humidity. Do not apply under damp conditions.
  - Maximum: 4 hours. Primer required no.
  - Usual number of coats: 1-2 (depends on substrate type and porosity).

- **Application method:**
  - Brush, short nap synthetic fibre roller or spray.

- **Thinning:**
  - Do not thin.

- **Clean up:**
  - Use Resene Brush Cleaner.

- **Colour range:**
  - Clear.

- **Before use:**
  - Silicone treatments may affect adhesion and penetration. A test patch is recommended. Stir well with a wide flat stirrer.

- **Keep away from heat, sparks, open flames and hot surfaces. No smoking.**

**PRECAUTIONS**

Read label before use. Keep out of reach of children. May be harmful if swallowed or inhaled. Use with plenty of ventilation. Avoid contact with eyes, skin and clothes. Use with plenty of air movement. Dispose of unwanted paint.

- **Toxicity:**
  - To skin: PETROLEUM, LIGHT AROMATIC SOLVENT 90-230 gms/L.
  - To eyes: GLYCOL MONOMETHYL ETHER – MIXTURES OF ISOMERS 270-550 gms/L. NAPHTHA (MIN 80%)

- **Health Hazards:**
  - Skin irritation: May be harmful if swallowed or inhaled. Use with plenty of air movement. Avoid contact with eyes, skin and clothes. Use with plenty of air movement.

- **Medical advice:**
  - When seeking medical advice take this container with you. If exposed, call a POISON CENTRE, or doctor if you feel unwell.

- **IF INHALED:**
  - If breathing is difficult, remove to fresh air and keep at rest. Do not give anything by mouth unless instructed.

- **IF IN EYES:**
  - Rinse cautiously with water for several minutes. Remove any contact lenses if present and easy to do so. Continue rinsing.

- **IF ON SKIN:**
  - Remove immediately any contaminated clothing. Rinse skin with water. If skin irritation occurs, get medical advice or assistance.

- **DISPOSAL**

- **Waste Disposal:**
  - Collect and seal in properly labelled drums. Do not allow to enter drains or to run off into waterways. Refer to local waste management authority.

- **Disposal:**
  - Disposal of waste from packaging should follow local regulations. Disposal of waste from packaging should follow local regulations.

- **Be PaintWise**

- **For tips on minimising the impact of your decorating on the environment see the Resene website.**

- **UN NO. 1263 – PAINT RELATED MATERIAL**

- **For use in:** Concrete, unglazed tiles, brick, cobblestones, driveways, paths, steps, patios, swimming pool surrounds and light industrial floors.

- **Gloss level:** Gloss (wet look).

- **Coverage:** Dependent upon surface porosity and type, typical coverage for concrete is 4.5-5.5 square metres per litre.

**Walk-on Concrete Clear Wet Look**

- **Exterior protection for concrete and pavers.**

- **Solventborne**

- **Gloss**

- **Clear**

- **Use on:**
  - Concrete (after a minimum of four weeks' drying).
  - Concrete (after a minimum of four weeks' drying).

- **Application**
  - Can be applied to exterior concrete and pavers.

- **Preparation**
  - Concrete should be dry and acid wash (see Data Sheet D/D123) prior to clear coating. Acid washing is only to be used in the absence of a conditioning membrane. Soluble sodium hydroxide does not immediately absorb the water and then grinding is the only surface preparation option.

- **Application**
  - Concrete should be dry. Apply Resene Walk-on Concrete Clear Wet Look.

- **Preparation**
  - Apply Resene Deep Clean (see Data Sheet D125) at the start of spring and autumn for control of algal growth.

- **Application**
  - Continue rinsing. If eye irritation occurs, get medical advice or assistance.

- **Maintenance**
  - (after a minimum of four weeks drying)
  - 1-2 (depends on substrate type and porosity).

- **Peeling Paint**

- **For use in:** Concrete, unglazed tiles, brick, cobblestones, driveways, paths, steps, patios, swimming pool surrounds and light industrial floors.

- **Gloss level:** Gloss (wet look).

- **Coverage:** Dependent upon surface porosity and type, typical coverage for concrete is 4.5-5.5 square metres per litre.

- **Dry time:**
