Resene Wood Primer is based on an oil-modified alkyd resin blended with pigments to give ease of application and good adherence to substrates. Easy to apply, it is flexible and produces the ideal surface for subsequent paint finishes. Resene Wood Primer (pigmented aluminum variant) is made using a strong solvent odours associated with traditional solventborne alkyd resin primers.

Preparation
- Ensure substrates to be coated are in sound condition, dry, free from dirt, dust, loose material, oil (including mineral oil or earth). Collect and seal in properly labelled drums. Do not allow admittance of moisture. If spills occur, wash with soap and water. If skin irritation occurs get medical advice or attention. Wipe up spills with non-flammable absorbent and avoid release to the environment.

FIRST AID
- If on skin: Immediately wash off with soap and water. If on the eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so, and continue rinsing. If on clothing: Remove clothing immediately and wash before reuse.
- If swallowed: Rinse mouth or give water. If inhaled: Remove to fresh air and keep at rest in a position known to be comfortable.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so, and continue rinsing. IF INHALED: Remove to fresh air and keep at rest in a position known to be comfortable. IF SWALLOWED: Rinse mouth or give water. IF ON SKIN (including hair): Wash with soap and water. If skin irritation occurs get medical advice or attention. Wash clothing before reuse. IF ON CLOTHING: Remove clothing immediately and wash before reuse.

Use non-sparking tools. Take action to prevent static discharges. Handle under conditions of temperature and humidity. Do not handle with sparks, open flames and other sources of ignition. No smoking. Keep away from heat, hot surfaces, sparks, open flames and other sources of ignition. No smoking.

SAFETY PRECAUTIONS
- Use foam, carbon dioxide or dry chemical powder. Fire. Use fire extinguishers: BC Class. Disposal of dirty mineral turps.

CLEANING PAINT EQUIPMENT:
- Use non-flammable absorbent and avoid release to the environment see the Resene website. Do not discharge paints, cleaning equipment or any by product into drains or waterways. See your Resene ColorShop or the Resene website for a copy. Enjoy the Resene Promise of quality products are designed to be used as a system for optimal results. Does not accept any responsibility for the application of incorrect products is the same as selected. When using multiple packs of this product on the same project please mix them together before use. Resene Thinner No.2 may be used instead of mineral turps.
