# Through falling leaves

Be inspired by Mother Nature's seasonal palette as summer leaves turn gold and amber beneath sweeps of grey-blue sky.

## GOT THE BLUES

If you require a darker shade to anchor the lighter, warmer tones in your space, a nearly navy blue is a lovely choice. This shade will provide a solid accent without being overpowering.

## KEEP YOUR COOL

Soothing Resene blue tones provide a calming atmosphere in the home and choosing to paint your walls in a lighter shade will make a small space appear larger, too. Keep the autumn feeling alive by adding subtle hints of warmth with lighter hues such as pale yellow, soft peach and cream.

**TAKE CUES FROM THE GREAT OUTDOORS**  
Cool tones such as blue and grey appear alongside warm shades of camel and maple in nature, so apply the same logic to your autumnal colour scheme and don't be afraid to mix and match.

## PLANNING YOUR MASTERPIECE

Bold shades such as mustard, burnt orange and saffron can seem like a big commitment, so you may choose to paint a single wall, door or recessed shelf for a statement pop of colour instead. Keep the rest of your space light, neutral and airy for an understated yet modern feel.

## GREY MATTER

With scores of chic greys to choose from, this shade makes the perfect base to anchor your autumnal tones.
